LOW — CRITICAL

Scored on TAM-C's 1 to 5 risk method. One panic alert this week, resolved without harm.

01 Activity highlights

PANIC ALERT — HIGH

Panic alert resolved in Nairobi

Traveler [redacted] pressed the panic button at 21:14 after a driver diverted from the route. The GSOC called within 40 seconds, confirmed location by GPS and sent a vetted car. The traveler was safe by 21:23.

MISSED CHECK-IN — ELEVATED

Mobile shutdown in Karachi

Authorities suspended mobile data during a protest, so two travelers missed their 18:00 check-ins. The GSOC reached both on hotel landlines within 30 minutes. The app queued their check-ins once data returned.

INDICATOR	TREND	EXPOSURE
Travelers in high-risk locations	▲ Rising	HIGH
Missed or late check-ins	▼ Easing	ELEVATED
Network shutdowns affecting the app	▲ Rising	ELEVATED
Location alerts sent to travelers	■ Steady	MODERATE

03 Program recommendations

01 Add hotel landline numbers to traveler profiles for destinations with data shutdowns.

02 Require app enrollment and a test check-in before any high-risk country trip.

03 Remind travelers to keep location sharing on while the app runs in the background.
