BOTTOM LINE UP FRONT

France scores 3 of 5 on terror risk. Published indexes place the country lower, but TAM-C research shows lone-actor plots and online radicalization remain persistent. Crowded public venues and transport hubs in Paris and Lyon carry the highest exposure.

COUNTRY TERROR SCORE

3 / 5

ELEVATED

LOW — CRITICAL

Scored on TAM-C's 1 to 5 risk method. Enhanced one level above published indexes.

01 Key findings

LONE ACTORS — HIGH

Young lone actors drive disrupted plots

Most plots disrupted this period involved individuals under 21, radicalized online through [redacted] channels. Planned targets were churches, festivals and public transport in large cities.

SOURCE · OFFICIAL STATEMENTS

MAJOR EVENTS — ELEVATED

Event season raises crowd exposure

Summer festivals and sporting events in Paris and Marseille draw crowds that past attackers selected. A [redacted] propaganda outlet circulated a call to target outdoor gatherings.

SOURCE · TAM-C RESEARCH

INDEX REVIEW — MODERATE

Indexes lag the current threat picture

Two of four indexes weigh attack counts from prior years and miss recent disruptions. TAM-C adjusts the score upward after assessing each index for reliability and [redacted] data gaps.

02 Terror indicator watch

INDICATOR	TREND	EXPOSURE
Online radicalization of minors	▲ Rising	HIGH
Calls to target crowded public events	▲ Rising	ELEVATED
Vehicle ramming attempts	■ Steady	ELEVATED
Organized cell activity	▼ Easing	MODERATE

03 Analyst recommendations

01 Review crowd management and access control plans for client events in large cities.

02 Brief traveling staff on run, hide, tell guidance before major event periods.

03 Monitor national alert levels and adjust travel plans when the posture changes.
