

INTELLIGENCE CENTRAL

THE ONLY THING YOU CAN RELY ON WHEN TRAVELING ABROAD

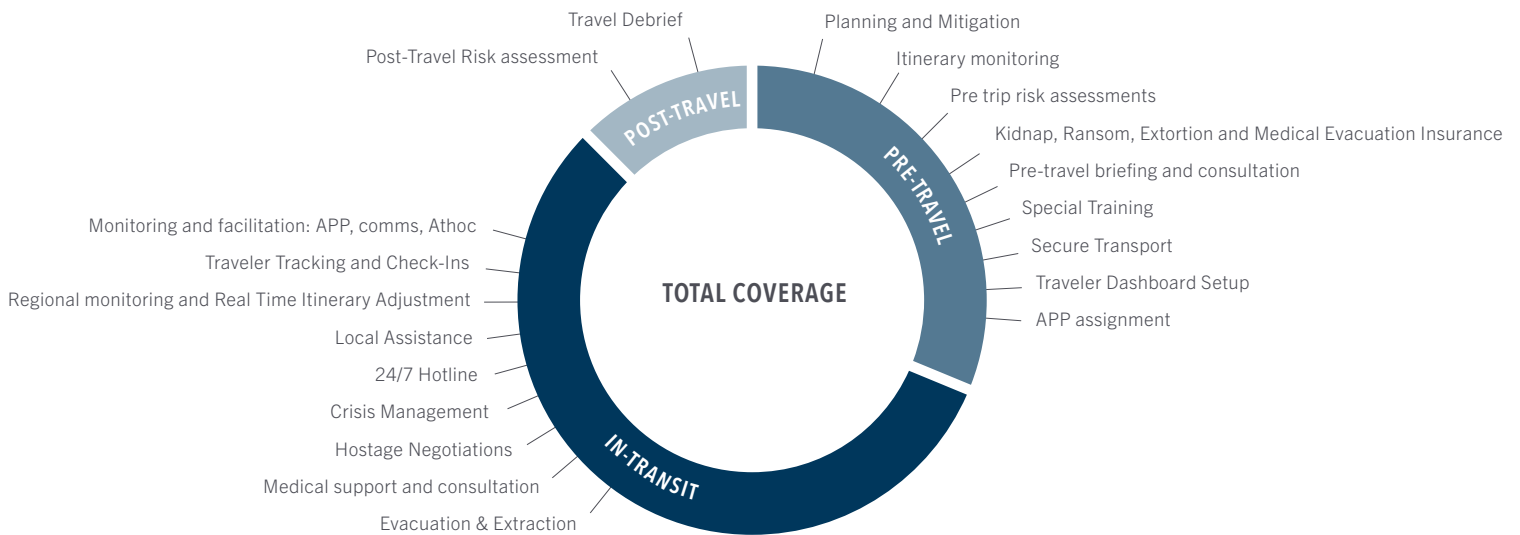

TRAVEL DUTY OF CARE BY TAM-C

Offering complete coverage from the planning stage to post-travel lessons, our GSOC combines unparalleled risk assessment and TAM-C's unique insurance covering kidnapping, ransom, extortion, and medical evacuation.

It's a security envelop that helps you put together safer itineraries, make real time changes based on shifting threats on the ground, and one of the few in the world that can step in to deliver state-level crisis management if security deteriorates and matters escalate.

Before any travel, a regionally-oriented native-speaking analyst will produce an in-depth pre-travel risk assessment that includes a background study on the country and areas of interest, and a comprehensive threat assessment, as well as provide the locations of hospitals and police stations, and detailed mapping of cell phone coverage along your route.

During your travel, you are plugged into the GSOC through a secure mobile app for real time monitoring and 24/7 actionable intelligence in case of developing threats.
